Smart Kids Planet is the first Smart Play Center in Poland.

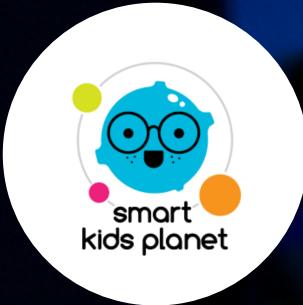

An interactive and innovative place that bridges the gap between Science Centers and playrooms.

we develop future competences

we engage in smart play

we inspire to discover the world

in addition...

# Smart Kids Planet returns in the heart of Warsaw at the Norblin Factory and it will be even smarter!

Norblin Factory

- 1,600 square meters
- innovative and interactive attractions
- as many as 9 zones of smart fun!

Agnieszka Maj-Kleszowska

psychologist; headmaster of kindergarten and elementary school

"Children have a natural thirst for knowledge - to discover, to experience. They are motivated to play, which at kindergarten and early school age, enables them to discover the surrounding world, influences their imagination and creativity. Smart Kids Planet in an attractive, positive and innovative way stimulates and motivates children to develop their interests and passions. The variety of thematic and workshop zones is a perfect consolidation and supplementation of the issues included in the core curriculum of the Ministry of National Education"

"Interactive and innovative facility, having no substitute anywhere else in Warsaw! "

'Zalatana rodzinka' blog

"Thank you SO MUCH to the whole team. It was our best trip full of smart fun. We will come back to you soon "

Miś Kindergarten

"Smart Kids Planet is a unique place for Smart Brainiacs, which combines learning with fun. The only place that never gets boring whenever we pop in."

'Mamo daleko jeszcze' blog

# Why is it worth visiting us?

At Smart Kids Planet, we prove that children's development and learning are great fun! The best confirmation of this are the smiling faces of children, who simply don't want to leave us!

👉 we offer classes that develop future competences in line with the core curriculum

thanks to which children can learn to cooperate and integrate in a safe environment, in a place full of smart solutions

👉 we take care of the group

thanks to which caregivers can have a moment of rest, by using the Smart Cafe voucher

👉 our Center is located in Norblin Factory in the very center of Warsaw

so you don't have to worry about bad weather when planning a trip

10 children = 1 coffee or tea voucher

Plan your trip in 3 steps...

# Step 1: Choose a package

## Normal

2 hours of playtime

Price:

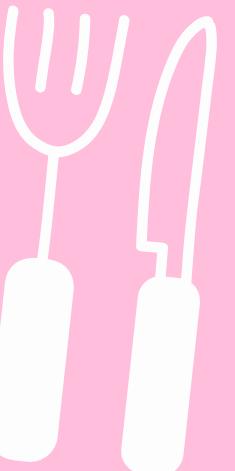

~~45 zł.~~ **35 zł**

## Smart

1.5 hours of playtime  
+ 30 min workshop

Sample menu:

- Soup of the day + pancakes + compote -  
PLN 18 / person

Even more benefits!

Happy Hours! -10% daily from 1 p.m. to 5 p.m.

#smart #delicious #creative

## Step 2: Choose smart workshops

If you chose our Smart package, be sure to check out our attractions!

1

### Internet aces

An educational program created by Google and the 'Szkoła z Klasą' Foundation.

During the classes, children will learn the basics of safety and participation in an online community in order to navigate the online world without fear. The aim of the exercises is to strengthen positive values such as common sense, mindfulness, strength, kindness and courage among the youngest.

9+ years

2

### Entrepreneurship

During the workshop, we will answer some important questions about what does it mean to be entrepreneurial? How to properly define the purpose of our actions? And most importantly - how to develop an action strategy so that we can implement our plans? Thanks to this, each participant will surely become a master of entrepreneurship!

8+ years

During the workshops at Smart Kids Planet, we develop future competences, such as creativity, digital skills, entrepreneurship and the ability to cooperate.

## Step 2: Choose smart workshops

3

### Culinary

5+ years

#### Polish cuisine - pierogi

Polish cuisine is not boring at all! We will learn a bit about bliny, moskoles, sękacz and kartacze! We will learn about Polish regional specialties, and then we will make delicious pierogi stuffed with white cheese! Yummy!

#### Italian cuisine - pizza or calzone

Time for dishes that every ragazza and ragazzo will love! We will learn how to make pizza and calzone, we will find out why the dough rises, and we will also see that pizza can become a real work of art!

#### Healthy Lunch Box

Can children eat healthy and tasty while at school? Sure! All you need is a bit of vegetables and fruit, a pinch of imagination and a lot of appetite! We will learn how to make creative sandwiches, colorful fruit snacks and banana pancakes! It will be delicious!

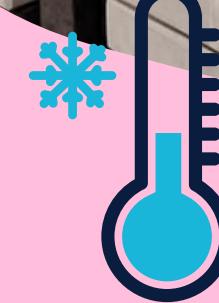

4

### Scientific shows

5+ years

#### Liquid nitrogen secrets

During the show, we will discover the secrets hidden in nitrogen - the gas that is the main component of air. But what happens when we cool it down to -196 degrees Celsius? Will it be helpful when hammering nails? Will it be useful when playing football? Or maybe thanks to it, we will be able to create a real cloud? Let's find out!

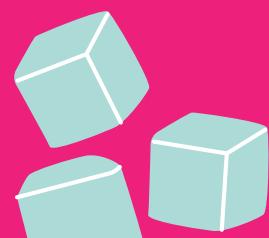

#### Explosive experiments

What's the most interesting thing about experimenting? Explosions, of course! Together with our mad scientist we will try to find the perfect recipe for an explosive experience! To attain this, we will learn how to be real scientists, we will try to help an elephant in need and we will create balloon skewers! Great fun guaranteed!

#### Dry Ice Fever

Time to meet an amazing ice cube that won't melt! And that is just one of its amazing properties! Thanks to the carbon dioxide that has been frozen to -78.5 degrees Celsius, we will try to perform a concert, create giant soap bubbles, and we will also create a waterfall from steam! Emotions will run high!

## Step 2: Choose smart workshops

6

### Meeting with an animated avatar

3+ years

All scenarios are based on the core curriculum in kindergarten education and general education in primary school in grades I-III.

FISH

### A fascinating immersion in a mathematical world!

We will meet with a fish that will introduce us to an underwater, mathematical world. We will try to solve underwater logic puzzles, count all the fish in the ocean and play math games!

ASTRONAUT

### Adventure in the starry world of physics!

We will experience the asteroid rain, find out what the solar system looks like and see what an everyday life of an astronaut looks like! We will solve galactic puzzles, try to count the stars in the universe, and maybe even do a space dance!

DINOSAUR

### An amazing journey into the past!

Watch the video

BEE

### A sweet flight to an ecological meadow!

We will meet a hardworking Bee that will tell us a bit about the delicious honey - but not just that! We will learn why bees are necessary on our planet, how climate change affects human life and what each of us can do every day to become an ecological superhero!

# Smart 'Saint Nicholas' Day' with an idea

Unforgettable Saint Nicholas' Day? It's the one at Smart Kids Planet! In addition to traditional playtime in the zones, Smart Brainiacs will be able to take part in Christmas workshops and even meet Santa, who will provide them with festive attractions! Choose a package for yourself:

## Smart Workshops

Price:  
49 zł

## Smart workshops + meeting Santa

Price:  
59 zł

Choose smart workshops that will make children feel the Christmas atmosphere!

#1 Christmas avatar meeting
