Smart Kids Planet is the first Smart Play Center in Poland.

An interactive and innovative place that bridges the gap between Science Centers and playrooms.

we develop future competences

we engage in smart play

we inspire to discover the world

in addition...

Smart Kids Planet returns in the heart of Warsaw at the Norblin Factory and it will be even smarter!

Norblin Factory

- 1,600 square meters
- innovative and interactive attractions
- as many as 9 zones of smart fun!

Agnieszka Maj-Kleszowska
psychologist; headmaster of kindergarten and elementary school

"Children have a natural thirst for knowledge - to discover, to experience. They are motivated to play, which at kindergarten and early school age, enables them to discover the surrounding world, influences their imagination and creativity. Smart Kids Planet in an attractive, positive and innovative way stimulates and motivates children to develop their interests and passions. The variety of thematic and workshop zones is a perfect consolidation and supplementation of the issues included in the core curriculum of the Ministry of National Education "

"Interactive and innovative facility, having no substitute anywhere else in Warsaw! "

'Złotana rodzinka' blog

"Thank you SO MUCH to the whole team. It was our best trip full of smart fun. We will come back to you soon "

Miś Kindergarten

"Smart Kids Planet is a unique place for Smart Brainiacs, which combines learning with fun. The only place that never gets boring whenever we pop in. "

'Mamo daleko jeszcze' blog

Why is it worth visiting us?

At Smart Kids Planet, we prove that children's development and learning are great fun! The best confirmation of this are the smiling faces of children, who simply don't want to leave us!

we offer classes that develop future competences in line with the core curriculum

thanks to which children can learn to cooperate and integrate in a safe environment, in a place full of smart solutions

we take care of the group

thanks to which caregivers can have a moment of rest, by using the Smart Cafe voucher

our Center is located in Norblin Factory in the very center of Warsaw

so you don't have to worry about bad weather when planning a trip

10 children = 1 coffee or tea voucher

- pancakes with cheese topped with strawberry mousse
- egg cutlet with mashed potatoes and mousseline
- spaghetti in bolognese sauce
- 2 slices of margharitta or ham pizza

19,90 zł /os

Step 2: *Choose smart workshops*

If you chose our **Smart** package, be sure to check out our attractions!

During the workshops at Smart Kids Planet, we develop future competences, such as creativity, digital skills, entrepreneurship and the ability to cooperate.

9+ years

Internet aces

An educational program created by Google and the 'Szkoła z Klasą' Foundation. During the classes, children will learn the basics of safety and participation in an online community in order to navigate the online world without fear. The aim of the exercises is to strengthen positive values such as common sense, mindfulness, strength, kindness and courage among the youngest.

8+ years

Entrepreneurship

During the workshop, we will answer some important questions about what does it mean to be entrepreneurial? How to properly define the purpose of our actions? And most importantly - how to develop an action strategy so that we can implement our plans? Thanks to this, each participant will surely become a master of entrepreneurship!

Step 2: *Choose workshops*

If you chose our package, **Smart +** be sure to check out our attractions!

5+ years

Eco-candles

It's time to learn how to be eco-friendly in a smart way! During the workshop we will make phenomenally fragrant candles from natural beeswax! We will learn a little about the life of bees, learn about their impact on the environment, and find out what to do in everyday life to protect our planet!

NEW!

5+ years

Coding

with RoboSnail!

This is a workshop to introduce the little ones to the world of programming! Children will learn the code that will make the snail perform their commands - move in the right direction, change colors, or make certain sounds. Children will learn what a command is, a loop, and how important it is to discover and fix mistakes made. Of course, they will also have great fun!

NEW!

7+ years

DNA Explorers

All living creatures and plants have a secret code in them - unique DNA! It is in this code that genetic information is hidden. From it you can read information about the structure and functioning of the organism. It is this unique code that determines that a banana looks like a banana and a person looks like a person! During the workshop we will become real explorers of DNA and with the help of a chemical solution created by ourselves, we will isolate real DNA from a banana! By the way, we will learn what the structure of a plant and animal cell looks like plant and animal cells, and at the end we will examine our samples under the microscope!

Step 2: *Choose workshops*

If you chose our package, **Smart +** be sure to check out our attractions!

7+ years

Cyjanotype light painting

During the workshop we will make unbelievable pictures - we will paint them using light! For this we will use light-sensitive paper and fluorescent paints! We will also find out what light is, at what speed it moves and if it has any color! It will be smart!

NEW!

Airshot

We will explore the secrets that this inconspicuous, colorless gas - air - hides. We will play with pressure changes, trying to create our own cloud, and if successful, even a mini tornado! We will try to shoot with an air cannon and create a firing machine to create steam!

Dry Ice Fever

Time to meet an amazing ice cube that won't melt! And that is just one of its amazing properties! Thanks to the carbon dioxide that has been frozen to -78.5 degrees Celsius, we will try to perform a concert, create giant soap bubbles, and we will also create a waterfall from steam! Emotions will run high!

Explosive experiments

What's the most interesting thing about experimenting? Explosions, of course! Together with our mad scientist we will try to find the perfect recipe for an explosive experience! To attain this, we will learn how to be real scientists, we will try to help an elephant in need and we will create balloon skewers! Great fun guaranteed!

Scientific shows

5+ years

Step 2: *Choose workshops* **premium**

If you chose our package, **Smart premium** be sure to check out our attractions!

Polish cuisine - pierogi

Polish cuisine is not boring at all! We will learn a bit about bliny, moskoles, sękacz and kartacze! We will learn about Polish regional specialties, and then we will make delicious pierogi stuffed with white cheese! Yummy!

Chocolate madness

Who doesn't love chocolate... And especially when you can make it yourself! And all this with unique ingredients - freeze-dried fruits, dried flowers, and chocolate shapes in numerous colors! We will also take part in an exciting chocolate quiz and learn about the history of chocolate. It promises to be a delicious smart adventure!

Healthy substitutes for sweets

Do sweets have to be unhealthy? Not necessarily! Just make them from healthy substitutes, which we will learn during our workshops! We will make wholesome candy bars, which will not lack nuts, dates and other fruits. It will be healthy and delicious!

Italian cuisine - pizza

Time for dishes that every ragazza and ragazzo will love! We will learn how to make pizza, we will find out why the dough rises, and we will also see that pizza can become a real work of art!

5+ years

Step 2: Choose smart workshops

6

Meeting with an animated avatar

3+ years

All scenarios are based on the core curriculum in kindergarten education and general education in primary school in grades I-III.

FISH

A fascinating immersion in a mathematical world!

We will meet with a fish that will introduce us to an underwater, mathematical world. We will try to solve underwater logic puzzles, count all the fish in the ocean and play math games!

ASTRONAUT

Adventure in the starry world of physics!

We will experience the asteroid rain, find out what the solar system looks like and see what an everyday life of an astronaut looks like! We will solve galactic puzzles, try to count the stars in the universe, and maybe even do a space dance!

DINOSAUR

An amazing journey into the past!

Awaiting for us is an amazing meeting with a cheerful dinosaur who will reveal all the secrets about life from millions of years ago! We will get to know the species of dinosaurs and find out what the world in which they lived was like!

BEE

A sweet flight to an ecological meadow!

We will meet a hardworking Bee that will tell us a bit about the delicious honey - but not just that! We will learn why bees are necessary on our planet, how climate change affects human life and what each of us can do every day to become an ecological superhero!
