

Take Brainiacs for a Smart Trip!

offer for kindergarten and school groups

allegro

SAMSUNG

Warszawska Organizacja Turystyczna

innovative and interactive Edutainment Center

Why is it worth?

Children can learn to cooperate and integrate in a safe environment in a place full of smart solutions.

We offer workshops that are in line with the core curriculum and develop competencies of the future.

Teachers can enjoy a moment of relaxation by using a Smart Cafe token.

We provide engaging attractions

10 children = 1 token for coffee or tea and 30% discount on the teacher's meal

When planning a trip, you don't have to worry about bad weather

Our Center is located in the Norblin Factory in the very center of Warsaw

Why us?

we develop competences of the future

we engage in smart fun

we inspire to discover the world

“We really liked it. The service was very nice, the children were delighted. The lady who ran the workshops was amazing. We will be back with our classes – we already have more reservations!”

Fit and Fun

“Thank you VERY MUCH to the whole team. It was our best trip full of smart fun. We will come back to you soon”

Teddy Bear Kindergarten

Organize your trip in 4 steps...

Class Integration

only in September and October

NEW!

Class Integration is not only great fun but also an excellent opportunity to build lasting relationships with new friends from your group.

Under the supervision of an experienced animator, children will participate in specially prepared integration games that develop social skills, they teach cooperation and mutual support.

Step 2: *Choose a workshop*

CHRISTMAS OFFER COMING SOON!

If you have chosen the **Smart +** package, be sure to check out our attractions!

NEW!

SAMSUNG

For 6 year olds

Mindfulness on the web

During the workshops, we teach children how important it is to distinguish truth from falsehood on the web. The youngest learn the word fake news and, by taking part in an interactive quiz, they have the chance to check for themselves whether they can recognize false information among the correct answers. Brainiacs will also have a chance to take part in a unique workshop during which they will make mindfulness buttons. It will be smart!

for preschoolers

For 8 year olds

Enterprise

During the workshop, we will answer several important questions: what does it mean to be entrepreneurial? How to properly specify the goal of our actions? And most importantly - how to develop a strategy of action so that we can implement our plans? Thanks to this, each participant will certainly become a master of entrepreneurship!

for grades I-III

During the workshops we develop: creativity, digital skills, entrepreneurship, and cooperation skills.

Step 2: *Choose a workshop*

CHRISTMAS OFFER COMING SOON!

If you have chosen the **Smart +** package, be sure to check out our attractions!

For 5 year olds

Eco - candles

It's time to learn ecology in a smart style! During the workshops, we will make amazingly scented candles from natural beeswax! We will learn a bit about the life of bees, their impact on the environment, and we will also find out what to do in everyday life to protect our planet!

for preschoolers

NEW

For 5 year olds

Coding

with RoboSnail!

This workshop is intended to introduce the youngest to the world of programming! Children will learn the code that will make the snail follow their commands - move in the right direction, change colors, or make specific sounds. Children will learn what a command and a loop are and how important it is to discover and correct mistakes made.

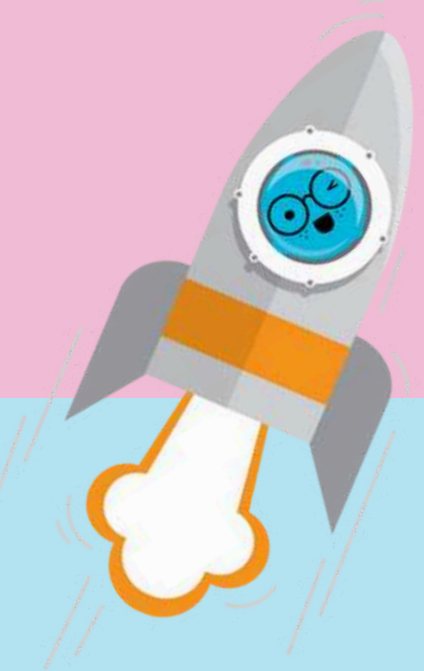

NEW

For 7 year olds

Discover the DNA

All living creatures and plants have a mysterious code - unique DNA! It is in this code that genetic information is hidden. You can read information about the structure and functioning of the body from it. It is this unique code that determines that a banana looks like a banana and a human looks like a human! During the workshop, we will become true DNA discoverers and, using a chemical solution created by ourselves, we will isolate real DNA from a banana! At the same time, we will learn about the structure of a plant and animal cell, and at the end, we will examine our samples under a microscope!

for grades I-III 

Step 2: *Choose a workshop*

If you have chosen the **Smart +** package, be sure to check out our attractions!

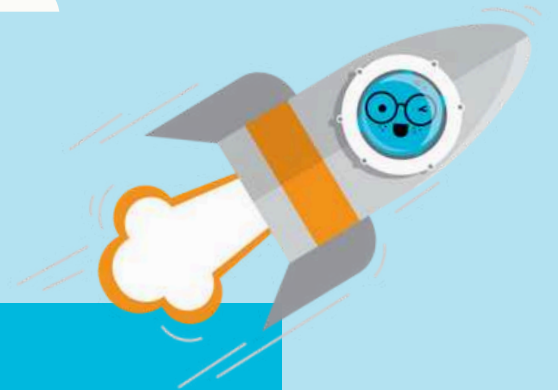

For 7 year olds

Cyanotype painting with light

During the workshops we will make amazing paintings - we will paint them with light! We will use photosensitive paper and fluorescent paints! We will also learn what light is, at what speed it moves and whether it has a color! It will be smart!

for grades I-III

for preschoolers

Science Shows

For 3 year olds

Dry Ice Fever

It's time to meet an amazing ice cube that won't melt! And that's just one of its amazing properties! With carbon dioxide frozen to -78.5 degrees Celsius, we'll try to perform a concert, create giant soap bubbles, and also create a waterfall of steam!

Explosive experiments

What is the most interesting thing about experimenting? Explosions, of course! Together with our mad scientist, we will try to find the perfect recipe for an explosive experiment! To do this, we will undergo training as real scientists, try to help an elephant in need and create balloon skewers! Fun guaranteed!

Step 2: *Choose a workshop*

If you have chosen the **Smart +** package, be sure to check out our attractions!

Meeting with an animated avatar

For 3 years now

CHRISTMAS OFFER COMING SOON!

for preschoolers

FISH

A fascinating immersion in the world of mathematics!

We will meet a fish that will introduce us to the underwater, mathematical world. We will try to solve underwater logical puzzles, count all the fish in the ocean and play mathematical games!

ASTRONAUT

Adventure in the starry world of physics!

We will experience an asteroid rain, learn what the solar system looks like and see what the daily life of an astronaut looks like! We will solve galactic puzzles, try to count the stars in the universe and maybe even dance a cosmic dance!

DINOSAUR

An amazing journey into the past!

We will have an amazing meeting with a cheerful dinosaur who will reveal all the secrets about life from millions of years ago! We will learn about the species of dinosaurs and find out what the world they lived in looked like!

BEE

Sweet flight to an ecological meadow!

We will meet the hardworking Bee, who will tell us a bit about delicious honey - but not only that! We will learn why bees are essential to our planet, how climate change affects human life and what each of us can do every day to become an ecological superhero!

Step 2: *Choose a workshop premium*

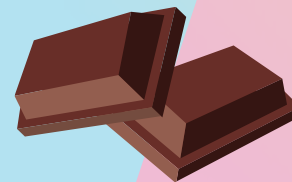

If you have chosen a **Smart premium** to check out our attractions!

Polish cuisine - dumplings

Polish cuisine is not boring at all! We will learn a bit about blinis, moskole, sękacz and kartacze! We will learn about Polish regional specialties, and then we will make delicious pierogi stuffed with white cheese! Yum!

Chocolate madness!

Who doesn't love chocolate... Especially when you can make it yourself! And all of this with unique ingredients - freeze-dried fruit, dried flowers, and chocolate shapes in many colors! We will also take part in an exciting chocolate quiz and learn the history of chocolate. It promises to be a delicious smart adventure!

Italian Cuisine - pizza

It's time for dishes that every ragazza and every ragazzo will love! We'll learn how to make pizza, find out why the dough actually rises, and see that pizza can become a real work of art!

For 5 year olds
