**Lesser's Poland
only Smart Play Center**

Who are we?

Smart Kids Planet is **Poland's first Smart Play Centre**, bridging the gap between play areas and science centres. Our mission is to inspire children to explore the world through **the idea of smart play**.

Why choose us?

- Interactive zones developing children's **future skills**
- Workshops aligned with the **national curriculum**
- A guaranteed trip **regardless of the weather**
- For chaperones, a free **coffee or tea** token
- Option to order a **hot meal**, simplifying trip logistics
- Coach parking available

We believe that curiosity is the beginning of every discovery. That is why we created a space where learning becomes an adventure and play takes on meaning.

Our guests' reviews

"We loved it. The staff were very friendly, the children were delighted. The workshop leader was amazing. We'll be back with our classes – we've already made more bookings!"

Fit&Fun

Every year
we welcome over
35 000
school students!

"A HUGE thank you to the whole team. It was our best trip ever, full of smart play. We'll be back soon!"

Miś Preschool

Smart Shopping Zone

9 interactive zones, 1,600 m² of space
and over 50 engaging, educational attractions!

Here, play is not just laughter and joy – it's also the first step to understanding how the world works!

Each zone in our centre is a separate adventure: young explorers can **experiment, build, create** and ask questions they will answer themselves through hands-on smart play.

1 pm – 5 pm

All groups are guided by an animator at the start.
Socks are mandatory (regular for adults, non-slip for children).

Choose workshops

SMART+

Sensory Adventure

In the workshop, children journey into the world of **colours, shapes, lights, sounds and textures**. They create beautiful **sensory bottles, which complement the adventure and make a valuable keepsake**.

The workshop supports the physical, cognitive and emotional areas of child development. It covers topics in sensory and art education.

Secrets of Fossils

During the workshop, children **become palaeontologists**, learn fun facts about dinosaurs and other prehistoric animals, and discover **how fossils are formed**. They then **cast a fossil replica** to take home.

The workshop develops curiosity, manual dexterity, and trains concentration as well as the ability to acquire knowledge through observation and action.

Eco Candles

During the workshop, children learn **why it is important to sort waste, save water and what recycling means**. They then independently **create eco-friendly candles from beeswax sheets**, which they take home as a fragrant, natural souvenir.

The workshop fosters pro-environmental attitudes and responsibility for the environment, while also training patience, concentration and fine motor skills.

Choose workshops

SMART+

Meet the Avatar

During the workshop, children meet one of two animated avatars: **Fish or Bee**. Each takes participants on a different adventure. **Children solve puzzles and actively participate** in an interactive session.

The workshop supports the physical, cognitive, emotional and social areas of child development.

Explorers' Planes

During the workshop, children embark on an **extraordinary journey** **discovering different cultures, animals and nature**. They then independently assemble **wooden model planes** and **decorate them with their own designs**, creating a unique travel souvenir.

The workshop broadens knowledge of the world, develops curiosity, and builds manual skills and creativity.

Choose workshops

SMART+

Science show: liquid nitrogen

During the spectacular show, children learn **what liquid nitrogen is**, why it reaches such a low temperature and how it affects different materials. Children observe **extraordinary, spectacular experiments** performed by a **qualified animator** who explains the phenomena to children **in a simple and engaging way**.

The workshop develops curiosity, interest in science, and builds observation skills and the ability to draw conclusions.

Science show: dry ice

During the spectacular show, children learn **what dry ice is**, why it is so cold and how it differs from regular ice. They observe **the phenomenon of sublimation and the formation of dense fog** during experiments performed by a qualified animator who **explains the phenomena to children in a safe, simple way**.

The workshop develops curiosity, interest in science, and builds observation skills and the ability to draw conclusions.

Choose workshops

SMART PREMIUM

Soap Bubble Laboratory

During the workshop, **children take on the role of scientists** and through a series of experiments **discover the properties of water, soap and air**, prepare their own bubble solution and create their own bubble wand.

The workshop develops curiosity, research skills and the ability to experiment, as well as logical thinking, and also trains concentration and precision.

Cooking Workshop: PIZZA

During the workshop, children learn **the secrets of making pizza**. They find out what ingredients make up the dough and **why balanced meals matter**. Finally, they prepare and bake **their own pizza**.

The workshop develops independence, builds healthy eating habits and awareness of meal ingredients, and improves teamwork during collaborative cooking.

Cooking Workshop: DATE LOLLIPOPS

During the workshop, children discover how colourful lollipops are made and **independently create their own sweet treats**. They design them by choosing their favourite colours and toppings, and **take the finished sweets home**.

The workshop develops creativity and imagination while creating original compositions, and trains precision, patience and concentration.

Choose your workshops

SMART PREMIUM

Gingerbread decorating

During the workshop, children **decorate ready-made gingerbread cookies using their own ideas**. Colourful icing, sprinkles and sweet decorations let them get **creative and design unique patterns**. Each child **takes their hand-decorated gingerbread cookies home**.

The workshop develops creativity, imagination and fine motor skills while also supporting concentration, precision and independence.

Winter soap making

In this workshop, children **create their own soy-based soaps**, choosing the shapes, colours and decorations themselves. Festive scents add a **cosy, wintery atmosphere** to the experience. Each child **takes their handmade soap home**.

The workshop develops creativity, fine motor skills and a sense of aesthetics while also supporting concentration, precision and independence.

Christmas decorations

During the workshop, children **create festive Christmas tree ornaments** using colourful pipe cleaners and beads. By combining different shapes, colours and patterns, they design their own decorations. Each child **takes their handmade Christmas decoration home**.

The workshop develops creativity and imagination through creating original designs while also supporting precision, patience and concentration.

Upgrade your trip with a special meeting with Santa!

A festive chat with Santa and a short quiz full of fun Christmas facts! To wrap things up, **we'll take a keepsake photo of the whole group**, and **each child will receive an exclusive Smartek magnet**, available only for this special occasion.
